Position Title: **Senior Investment Advisor**

PT/FT: FT

Hours: 9-5p

Position Description/Qualifications:

We are interested in speaking with candidates who are licensed investment advisors that have a current client book of business in excess of \$30 million. If you, the advisor, are looking for a succession plan, please contact us. If you, the advisor, have reached a point in your career where most of your time is spent servicing clients and you thus have an inability to focus on other aspects of the business (effective, in-house portfolio management, producing meaningful content, growing your business, utilizing effective marketing, etc.) please give us a call. We are an independent SEC-registered boutique investment advisor. We are head-quartered in Ketchum, Idaho, but have a satellite office in San Francisco with enough room to bring on new advisors. We build all-ETF portfolios that differ based on risk appetite and have been doing so since 2007. Firm assets exceed \$500 million, 100% fee-only.

We run an honest and simple, yet very process-oriented business. All investment advisors are part of the twice-weekly investment committee meetings. We also have dedicated business development and marketing professionals who will be at the investment advisor's disposal for growing their assets. Your clients remain your clients.
